RECENT EXPERIENCE

Web Developer & Designer — *Freelance*

Cork, Ireland | January 2018 - PRESENT

<https://eileenchoi.com>

I design and develop static and Wordpress websites for small to medium sized businesses located across the U.S.A and Europe. I am skilled in using Wordpress.org, HTML, CSS, jQuery and SASS in my builds and have become very familiar with MySQL, DNS, CDN, and caching. My workflow tools include Terminal, Github, MAMP, VS Code, Chrome Inspector and Trello. I am also actively learning PHP, Javascript and React to expand my skill set.

Indeed — *Account Executive, Strategic Growth*

Toronto, Canada | April 2017 - October 2017

<https://indeed.com>

Building on my success as an Account Executive, I was promoted to the Strategic Growth team, where I focused on growing existing business by a minimum of 18%-20% quarter over quarter. The core principles of thinking beyond the sale and being able to find and create tailored solutions to complex problems faced by my clients remained a pillar of my success.

Indeed — *Account Executive*

Toronto, Canada | October 2015 - April 2017

<https://indeed.com>

I worked with a diverse range of businesses to create, manage and troubleshoot ongoing recruitment campaigns on Indeed. The key to my success was focusing on problem solving, and presenting viable solutions for my clients' most challenging issues in recruitment.

Softchoice — *Account Executive*

Toronto, Canada | September 2014 - October 2015

<https://softchoice.com>

This position required extensive knowledge of how technology infrastructure was set up in corporate settings, complex security systems,

SKILLS

Wordpress.org, HTML, CSS, PHP Hooks (Genesis Framework), SASS, API, jQuery, mySql, DNS, CDN, caching

Github, VS Code, Sublime, Terminal, MAMP, Chrome Inspector

Currently learning PHP, Javascript, React

LANGUAGES

English, Korean

Microsoft Licensing, Network Systems, Server Infrastructure, Cloud systems, SAAS, and more – which I learned with no prior knowledge, over a 3 week training program.

Clients relied on my expertise for a vast range of tech products and services. I worked closely with Solutions Architects and Technical Architects to source solutions to complex problems and quickly learned how to find answers to client questions on highly complex technologies, independently and accurately using the available resources.

My ability to seek out solutions to challenges quickly, and apply them to complex situations was a critical factor in my overall sales success.

EDUCATION

HackerYou — *Certificate*

Toronto, Canada | October 2017 - December 2017

<https://hackeryou.com/courses/bootcamp>

Completed Web Development Immersive, a 9-week bootcamp on Front-end web development. Languages included HTML, CSS, Javascript, React.

York University — *BA. Hons*

Toronto, Canada | September 2009 - June 2012

Honours Bachelors Degree in Sociology
